

## **Details of Mentorship Committee**

---

**Date of formation of the committee-02/11/11**

### **Functions & Objectives of the committee:-**

1. To look into and solve the problems faced by the students with regard to academics, interpersonal, social & psychological issues.
2. To guide & counsel the students for better outcome with regards to attendance, academic performance and evaluation of shortcomings by suggestive interaction.
3. To organize student/parent meet with staff for better understanding & development.
4. To provide emotional support to students with better student-teacher relationship.
5. To develop overall positive approach of students towards learning.

### **SOP of the Committee:-**

Mentorship is an informal relationship between a student and a professional adult to promote the students knowledge, skills or career. Mentors can provide personal and professional support to the mentees and can give advice and guidance regarding their career prospects and share their personal experiences which can be helpful to them.

Orientation programmes are carried out for the students of all years to sensitize students towards their expected behavior with faculty, colleagues, juniors and regarding their appropriate behavior in the campus through the book on code of conduct. Workshops on communication skills are carried out for language and communication skill development of the students by the mentors.

### **Mentoring sessions**

We have around three mentor-mentee sessions in an academic year. But mentees are free to approach their mentors as and when the need arises.

**1<sup>st</sup> session:-** Ice breaking games and introduction

**2<sup>nd</sup> session:-** Discussion with mentees regarding their strengths and weaknesses in academics.

Interaction with mentees on the following topics-

### **ACADEMIC**

1. Research avenues
2. Quiz/Essay competition
3. Seminars/Poster presentations
4. Pedagogy
5. Dental materials (Best from waste)
6. Discipline, Rules, Regulations
7. MUHS/DCI regulations

### **NON ACADEMIC**

1. Games
2. Family History
3. VSPM Family Information
4. Anti ragging committee and punishment for ragging
5. Physical & Mental health related issues
5. Exercise & Diet
6. Meditation

7. Social media pros & cons

8.Improvement of communication and language skills development.

9.Hidden talents-any extra curricular activities or any areas of passion.

### **3<sup>rd</sup> session**

Guidance regarding preparation of exams, stress management ,time management.

Stress test was carried out which indicated that some of the students had high stress levels and so they were counseled by their mentors which helped in lowering their stress levels as proven by a research study carried out in the college showing the significance of mentoring sessions.

Parent –Teachers meetings are held twice in a year. Parents are communicated well in advance regarding the PTM by sending bulk sms and also individually by the mentors telephonically.Every year incharge of ug cell and mentors allotted for that particular batch work together to organize the PTM.On the day of the PTM the parents are briefed about the mandatory rules of MUHS regarding the attendance and completion of students projects.Parents and students sign the undertaking regarding compulsory attendance in theory and practicals.Parents are shown the PCT reports and attendance of their wards and one to one interaction is carried out by the mentors regarding any problems faced by them.Feedback is collected from the parents, analyzed and discussed thoroughly by the ug cell,mentors in presence of the Dean for necessary action to be taken .

All the parents appreciated the PTMs and acknowledged the need and importance of the meet.These meetings improved the communication between parents,mentors and students.The recommendations of parents were considered,discussed and implemented by the ug cell committee.Parents were assured that they would be contacted every 6 months and necessary information about the progress of their wards in academics or any other issues will be communicated to them by the respective mentors.

Feedback received from students about the mentoring sessions was very encouraging. The mentees were able to discuss their problems with the mentors, improving their interpersonal and communication skills thereby enhancing their academic performances and attendance in classes. The mentoring sessions also helped in developing leadership skills as the mentors provided a helping hand and encouraged the mentees to achieve that extra mile to attain their goals.
