Visit to the gynaecologists of Urban area for a motivational lecture on infant oral health care

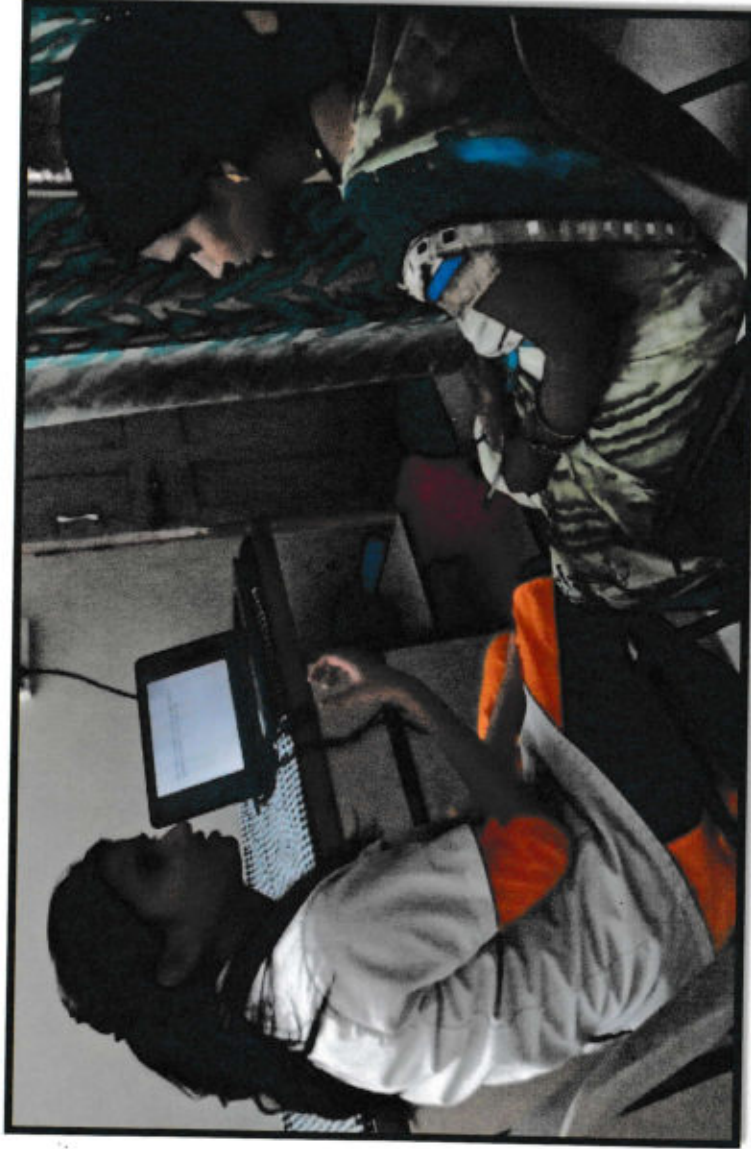

On the occasion of World Oral health Day, 20th March 2019 the PG students visited gynecologists of Nagpur city and evaluated the knowledge and attitude of the expectant mothers about infant oral health care. Through a 10 mins power point presentation, these mothers were educated and motivated to maintain good oral hygiene themselves and key health tips for better oral hygiene of infants were explained to them.

Nukkad Natak on the occasion of World Oral Health Day

World Oral Health Day is observed annually on 20 March, dedicated to raising global awareness of the issues around oral health and the importance of oral hygiene. The theme for 2019 was ACT ON MOUTH HEALTH. On this occasion, various events were conducted by the department of Pediatric and Preventive Dentistry, V.S.P.M dental college and research centre which included a skit performances (nukkad natak) on the importance of oral hygiene in children and motivational lecture for expectant mothers regarding infant oral health care.

Nukkad natak was performed by the PG students and interns posted in the department, for awareness of oral health in children at NIT garden at Swawalambi nagar, Nagpur. Children and their parents assembled in the garden witnessed nukkad natak, in which the importance of primary teeth and maintenance of oral hygiene was explained to them in an interesting way.

Interactive Sessions at Mother's pet Kindergarten, Nagpur.

On the occasion of World Oral health Day, 20th March 2018 to emphasize the importance of oral health care interactive sessions were conducted at Mother's pet kindergarten of Centre point school, Katol road, Nagpur. Children were explained the need of Oral health care and various good oral habits were discussed by the pedodontists. Highlight of the session was egg shell experiments to show ill effects of aerated cold-drinks on the teeth. Children enjoyed the overall session.

Masses are the strength of the society educating them leads to betterment of the country, thus public awareness rally was organized regarding oral health awareness and its importance for overall health.

Screening Camp at Jeevodaya Education Society – A Special school for medically handicapped.

Vidya Shikshan Prasarak Mandal (VSPM) Dental College and Research Centre has the mission of providing best quality health services with humanity. Under the able guidance of Dr. Usha Radke, Dr Ramkrishna Shenoi, Dr. Narendra Chandranee and Dr. Neelam Pande an Oral health awareness campaign on occasion of 'World Oral Health Day-Live mouth smart' for special children was started on 20th march 2017. A camp was conducted at Jeevodaya education society - special school for the mentally handicapped. Jeevodaya education society has been serving to train and educate these children since 1989.

190 children were screened for dental diseases by the postgraduate students and Interns under expert guidance of Dr. Gagandeep Lamba Wadhwa & Dr. Purva Chaudhari. The aim was to provide comprehensive dental treatment by expert doctors of various departments for these children at VSPM dental college. This camp marks the first milestone of dental health care treatments for special children on a mass level.

'Face it' prog to sensitise public about dangers of rash driving

LOCALITY NEWS NETWORK
VSPM'S, 14 FEB 15

The department of social and sociotechnical psychology, VSPM Dental College and Research Centre, organised the Awareness Drive on February 14, with a program titled 'Face it'.

This is a social mission undertaken by the association in a bid to sensitize general public about the perils of rash driving and freewheeling on a jobless road. The event was held through a video presentation, an interactive session, a quiz and a group discussion.

Dr. Usha Radke, Dean, VSPM Dental College and Research Centre, inaugurated the program. She said that the program was organized to create awareness among the public about the dangers of rash driving and freewheeling on a jobless road.

Dr. Usha Radke

road safety awareness. Also present on the occasion were associate professor V H Ravindra, Dean, department of sociology and associate professor, department of Engineering and Technology, O.H. National College, VSPM. The program was inaugurated by Dr. Usha Radke, Dean, VSPM Dental College and Research Centre. She said that the program was organized to create awareness among the public about the dangers of rash driving and freewheeling on a jobless road.

According to statistics, the number of road accidents in India has increased by 10 per cent in the last five years. The number of road accidents in Maharashtra has also increased by 10 per cent in the last five years.

roughly 1.50,000 of which 500,000 are daily commuters. It shows a road accident is occurring every 10 minutes. Most of these road accidents occur in the age group of 20-25 years.

The loss of life or limb is a tragedy. The loss of limb and facial disfigurement, mental trauma, financial loss, and the burden on the family are also a tragedy. It is well as the human to earth livelihood. Economic losses that are incurred on the part of a vehicle owner and society are also a tragedy. It is our country's loss of human and social capital. It is our country's loss of human and social capital.

It is our country's loss of human and social capital. It is our country's loss of human and social capital. It is our country's loss of human and social capital.

Dental College takes up cancer awareness in schools

'Weaning Away Younger Generation From Tobacco Vital'

Payal.Gowhanitimesgroup.com

Nagpur-Forty per cent of all cancers in India are caused because of tobacco consumption. The region has emerged as a hotbed of tobacco-related illnesses in the country. This calls for warding off the younger generation from the habit of tobacco consumption. With this aim in mind, Government Dental College and Hospital (GDCH) has undertaken a project to spread awareness in school kids about the ills of tobacco.

This project was started on World Cancer Day on Wednesday when they conducted an awareness drive at Prakash Keshi Vidyalaya at Parul. They will conduct such activities at more schools in coming months. Renowned ENT surgeon Dr. Abhishek Vaidya, GDCH professor Dr. Vivek Thombare and a maxillofacial surgeon from VSPM Dental College Dr. Praveen Ingole spoke about the various harmful effects of tobacco consumption, cancer,

Government Dental College students on anti-tobacco campaign

ous conditions in relation to those products and their treatment. Interns of the college also made several flex and posters that were displayed at the school.

"Nagpur is becoming the capital of oral cancer, primarily caused by chewing kharra, gutkha and other tobacco products. Since breaking the habit of the people addicted to these products is a very difficult exercise, the need of the hour is not to let the kids fall prey to the habit. This can be done most effectively by letting them know

Directorate of Medical Education and Research (DMER), Cigarette and Other Tobacco Product Act (COTPA) 2003 specifies that tobacco products should not be sold to minors, and can't be sold within 100 metre of an education institution. These laws have not been strictly implemented. For the past month, though, anti-tobacco activists from the state under the aegis of Maharashtra Cancer Warriors, a group of 50 doctors committed to eradicating tobacco consumption, have been actively seeking political support for the laws to be taken up seriously.

On January 31, a delegation led by BJP leader Ashish Deshmukh, also president of NGO 'No Tobacco Organisation', met the CM and he promptly signed a letter supporting their cause. On February 4, World Cancer Day, the CM said at Tata Memorial Hospital, Mumbai that the government was considering banning tobacco consumption at public places.

सुरक्षित ड्राइविंग के लिए मद्यपान से बचें, हेलमेट पहनें

मुख मत्व चिकित्सा शिक्षा
का आयोजन

सुरक्षित ड्राइविंग के लिए हेलमेट पहनना एक अनिवार्य कदम है। यह न केवल सड़क दुर्घटना से सुरक्षा प्रदान करता है, बल्कि घातक चोटों से भी बचाव करता है।

मद्यपान से बचना भी सुरक्षित ड्राइविंग के लिए एक महत्वपूर्ण कदम है। मद्यपान के कारण ड्राइवर की ध्यान केंद्रित करने की क्षमता कम हो जाती है, जिससे दुर्घटना का खतरा बढ़ जाता है।

हम सभी को सुरक्षित ड्राइविंग के लिए इन कदमों का पालन करना चाहिए। सुरक्षित ड्राइविंग ही सड़क पर जीवित रहने का एकमात्र तरीका है।
