Improving tool rigidity and reducing deflection primarily can be done by supporting the tool in the workpiece location. Supported tool is rigid.

Support point - 1st

Tool rigidity is important for accuracy. Example: rigid tool, high speed, low deflection.

Dr. Sanku, IITM

Support point - 2nd

Tool rigidity is important for accuracy. Example: rigid tool, high speed, low deflection.

Support point - 3rd

Dr. Sanku, IITM

After 1 day of surgery, (2nd visit) suture  
was removed. Implant was placed in  
both the sockets (R & L sides)

After 14 days of surgery - Post op  
reflected. A suture was  
placed in R and L sockets  
(2 x suture) in addition to  
the main suture

After 14 days of surgery and 11 months  
were placed in sockets. The suture  
was removed for the main suture to  
be removed in 2 months

Immediate suture placement to maintain  
type 1 muscle function. Great  
cut along suture  
(Abhishek) Implant placed in  
Mandible

Explain the scope of health program planning

Health planning is a process of identifying health needs and determining the best way to meet them. It involves a systematic approach to assessing the current health status of a community, identifying health problems, and developing strategies to address them. The scope of health program planning includes:

1. Assessment of health status: This involves collecting and analyzing data on the health status of the community, including prevalence and incidence of diseases, risk factors, and health behaviors.

2. Identification of health problems: This involves identifying the most significant health problems in the community, based on the assessment data.

3. Development of health programs: This involves developing specific health programs and interventions to address the identified health problems.

4. Implementation: This involves putting the health programs into practice.

5. Evaluation: This involves assessing the effectiveness of the health programs and making adjustments as needed.

Explain the scope of health program planning

Health planning is a process of identifying health needs and determining the best way to meet them. It involves a systematic approach to assessing the current health status of a community, identifying health problems, and developing strategies to address them. The scope of health program planning includes:

1. Assessment of health status: This involves collecting and analyzing data on the health status of the community, including prevalence and incidence of diseases, risk factors, and health behaviors.

 Topic: Structure of the eye  
 Part: Structure of the eye

1. Cornea: The outermost part of the eye, which is transparent and allows light to enter.

2. Iris: The colored part of the eye, which controls the amount of light entering the eye.

3. Lens: A biconvex lens that focuses light onto the retina.

4. Retina: The innermost part of the eye, which contains photoreceptors (rods and cones) that convert light into electrical signals.

5. Optic Nerve: A bundle of nerve fibers that carries visual information from the retina to the brain.

6. Optic Chiasm: The point where the optic nerves meet and cross.

7. Optic Tract: The part of the optic nerve that carries visual information from the optic chiasm to the brain.

## Patient Records.

The image shows a handwritten patient record book with several entries. Each entry includes patient details, a date, a diagnosis, and a treatment plan. The handwriting is in blue ink on lined paper. The entries are numbered 1 through 5. The first entry is for a patient named 'Mukta Motwani' with a diagnosis of 'Acute Myocardial Infarction' and a treatment plan including 'Aspirin', 'Clopidogrel', and 'Statins'. The second entry is for 'Apeksha Balpande' with a diagnosis of 'Acute Myocardial Infarction' and a treatment plan including 'Aspirin', 'Clopidogrel', and 'Statins'. The third entry is for 'Tapasya Karemore' with a diagnosis of 'Acute Myocardial Infarction' and a treatment plan including 'Aspirin', 'Clopidogrel', and 'Statins'. The fourth entry is for 'Anuraag Choudhary' with a diagnosis of 'Acute Myocardial Infarction' and a treatment plan including 'Aspirin', 'Clopidogrel', and 'Statins'. The fifth entry is for 'Smriti Golhar' with a diagnosis of 'Acute Myocardial Infarction' and a treatment plan including 'Aspirin', 'Clopidogrel', and 'Statins'.

### LIST OF STAFF MEMBERS TRAINED FOR TCC

1. Dr. Mukta Motwani
2. Dr. Apeksha Balpande
3. Dr. Tapasya Karemore
4. Dr. Anuraag Choudhary
5. Dr. Smriti Golhar
6. Dr. Apurva Mohite.

### LIST OF STUDENTS TRAINED (PG's)

- Dr. Kunal Sarate  
Dr. Pooja Tagade

- Dr. Shruti Talmale  
Dr. Manjiri Charpe  
Dr. Rajani Patle  
Dr. Shreya Kohale  
Dr. Adeeba Siddique  
Dr. Trushita Banubakude  
Dr. Rutuja Muneshwar

### LIST OF STUDENTS TRAINED (Intern's)

- Harsha Banorkar  
Parul Yadav  
Pooja Umate

- Arpita Thakur  
Pooja Mulghani  
Vaidehi Aawari  
Shivani Dalal  
Surbhi Patil  
Karan Jaiswal  
Sanjeevani Kamdi  
Gargi Mule  
Meenal Pande
