Nagpur, March 13, 2024: Today marked a milestone in Pediatric dental care as the Ranjeet Deshmukh Dental College of Nagpur City unveiled its highly anticipated Conscious Sedation Unit. The inauguration ceremony, graced by Shri Ranjeet Babu Deshmukh marked a significant leap forward in Pediatric dental healthcare. His presence emphasized the college's mission to continuously push boundaries and set new benchmarks in dental education and patient-centred dental care.

At the heart of the event was a comprehensive workshop on conscious sedation, tailored specifically for post-graduates and practitioners, and facilitated by the renowned Dr. Padmanabhan Yuvraj, Director of The Dentale Academy. With his expertise, attendees gained invaluable insights into the safe and effective administration of nitrous oxide sedation (NOIS), further enhancing their skills and capabilities in providing optimal care for anxious child patients.

NOIS heralds a new era in dental care, promising enhanced comfort and safety for children undergoing various dental procedures and at the same time instilling a positive attitude towards dental treatment. The event garnered significant participation from numerous dental colleges and private practitioners of the region.
