## *Mega Dental Camp at Nand PHC*

### **Camp Report**

Ranjeet Deshmukh Dental College & Research centre (formerly VSPM Dental College & Research Centre, Nagpur) has conducted *Mega Dental Screening & Treatment Camp* on **20- 03-2024** at **Nand PHC, Bhiwapur, taluka Nagpur** on Occasion of **World Oral Health Day 2024**.

*Nand village is situated in Teshil Bhiwapur, District Nagpur and in the State of Maharashtra India. Village has population of 4561 . It is located at a distance of 27 km from Bhiwapur and at a distance of 75 km from District Head Quarter, Nagpur.* It is surrounded by small villages around. Maximum *inhabitants* are *farmers and marginal workers population*. Even though there is existence of a Primary Health Centre (PHC), there is *no provision for dental services*. The villagers have to *travel* for approximately *25 km* to avail any dental services at taluka places.

The limited access and lack of dental services for the villagers and for the villages around made us to organize a camp at this village for providing screening, basic treatment and referral services.

A Total of *382 people registered* for the camp out of which *126 patients undergone various treatments like tooth extractions, oral prophylaxis and filling*. Approximately *122 patients were referred* to our institution for further treatment. The referred patients will be provided *treatments* at our institution at *concessional prices*.

### VYHAD PHC REPORT

Dental check-up camps were conducted at Vyhad Primary Health Care Centre twice a month from July 2023 to June 2024. Dental services were provided to the community. In total 20 visits were conducted to the PHC. A MoU was also signed between Vyhad PHC and our Institute. The camp aimed at raising awareness about oral health and providing high quality dental care for the underprivileged population. The services provided included consultations, preventive care and treatments like extractions, fillings, scaling and x rays which were immensely beneficial to the patients who otherwise lack access to specialized dental care.

The team consisted staff members and interns. The collaboration exemplified the spirit of community service and strengthened the partnership between medical and dental health providers for holistic healthcare delivery.
